John Bury and Will Huby Ac quitted of Grave Charges In the Police Court

EVIDENCE NOT SUFFICIENT

Held for immorality-Grand Larestry Case Against Bury Also Dismirand

OTHER POLICE

The case against John Bury, charg ed with rape, was called in the padee court this morning and went to trial. Bury and Will Huby have been in jail for several days on a charge of c inioally assumiting Plorence Roberts, and this morning Attorneys T. E. Moss and Josiah Harris appeared for the defense. County Attorney Graves apprared for the prosecution.

The prosecution objected to trying both rases together, and the one against flury was first taken up. and the main witness, the Roberts girl, was put on the stand. She made a frank statement, saying in reaponse toan inquiry that she had been "sporting since her arrival in the city three or four weeks ago. She gave her p'lace of residence as Ina, Ill., but came here from Haritsburg.

On the night of the alleged offense she came in from the park and was accounted on Third street by Hary, who asked her if she dido't want to have some fim, and upon her negative reply, said he would take her with him any way, and took her to a Fourth street saloon, over a block away. She sald this was against her will. They went through a narrow passage way and up stairs, and then he locked the toor, He threw her on a hed and af ter bis purpose was accomplished, unmeked it and went away. In a short time ituty came she sileged, and demanded rent for the room. The to'd him she had no money, and he said he would have it any way the said he s'sonszaulted her.

The gill's story did not seen to make much of an impression on the spectators, at least, and much of it believe it libe was greatly staken in the cross examination in which

liury testified that he did not do anything that the girl agreed to, and that the only thing he agreed to do that he didn't was to pay her three dollars fiorth of the young men promised her money, it was shown, but neither paid her, and histead don anned room rent of her.

Her watch was missed, but no trace of it was discovered, and their was nothing to show who had it. The case finally resolved itself into one of morality, and Judge Sanders did not take long to dismiss the war rant against Bury for rape and hold him for immoral conduct, and when Buby's case was called, shullar sction was taken. The grand incomy cone on motion of County Attorney Braves. was also diamissed.

The evidence showed that the girl had been staving as various hotels with a man named McFarland, as his wife, and that little else she had to d the court was true. If she made any outery, no pnehrard it, a though several heard her crying, presum ably over the lors of her watch and the manner in which she had been treaten.

Lon Atherton was charged by man named Hobbard, his uncle, with stealing some feathers. It appears the Trathers belonged to his mother, and she directed that they is sold to definy her funeral expenses, the old the feathers, going after them in broad daylight. The warrant against him was dismissed.

Mr. Goebeis entire business ca:cer has been against leading imsiness interests. There is no doubt of this. Why therefore a business 'n an can think of voting for such a characteer as a public servant in surprising. A party which will take up as leaders men of this stripe should and will sustain ignominions defeat at the hands of the people.

if Mr. Bryan is really allly enough to come into Kentucky to talk for Goebel he had as well kiss his presidentlai hopes good by so far as this state is concerned. The fight is a sifty and unjust one and will be resented in no insignificant way when these wage earners go to the polls in November. A party so an agonistic to a class should not expict any support from this or any other interest of similar character.

Taking of Manila Not Difficult For Dewey.

His Great Victory Was Just What

Ha Had Wished for for Many Years.

WASHINGTON, Aug 11 .- It is remarkable fact that Admital Dewey conjemplated the attack and capture of Manila 25 years ago, and it may slevelop that he carried out last year the plans which were prepared a generation since. In 1873 when the Virginius outrage was perpetrated, Commodore Dewey was in command of the Narragansett which was theb on the Asistic station. The country was lattsmed over the outtage and

war with Spalu seemed emminent. Dewey wrote the unvy department officials asking to be assigned to the duty of capturing Mauila if war should be declated. The peaceful settlement of the Virginius affair prevented the plans of the admiral from being carried out, but it is an interesting fact that the hero of Manila bay bad his eye on the Philippine capital a quarter of a century

When the Olymple, followed by the rest of his magnificent fleet, steamed tuto Manlla 15 months ago, Admiral Dewey floubiless remember ed his earlier aspiration, as well as the Maine horror, and that he illd his work so well may have been due to the fact that a few well placed shots were fired in revenge for the Virginius horror. It is probable the letter written by Commodore Dewey in 1873, in which his pian of attack was outlined, is on file at the navy department.

A search will be made for it, and if it is found it will be reproduced by the citizeus' committee of the reception to be given the admiral on his return to the nation's capital.

BLACKBURN IN DANGER.

FARNKFORT, Ky., August 11. - Tice question of whether the anti-Goebel state convention which meets at Lexington August 16 will indorse Back burn to developing into a serious is sue. A large number of the most in fluential men on the anti-clockel side are openly opposing the listorsement of Blackburn and some of these go so far as to oppose indorsement of Bryan. Ex Governor Brown, hitnself, is said to be unalterably opposed to any pank indorsing Blackburn, either directly or by inference, and in this he is supported by State Senators George Alex ander and Thomas II. Hays, of Louis ville, Major P. P. Breckinridge, of Lexington, and many others.

Their hostility to Blackburn a hecause of Blackburn's support of Gosbel and the part he is alleged to have taken the nomination for governor. The Goetic Lieaders think they acent in a laof this a move to defeat Rue'shern with itrown in the event the Republiansand anti-Goebel Democrats spould accure a majority in the legislations.
